Topic: Topic and Supporting sentences.

In today's writing class, we learned about topic sentences and supporting sentences. The instructor explained that the topic sentence tells the main idea of the paragraph, and the supporting sentences give more details about it.

During the class, we practiced writing a short paragraph. I wrote about the importance of learning English. At first, it was a little hard to think of supporting ideas, but the practice helped me understand how to organize my paragraph better.

Overall, the lesson was helpful. It made me realize that a good paragraph should focus on one clear idea and explain it with supporting details. I believe this will help me improve my writing little by little. (113 words)
